# EUROGAMES > HISTORY > STORIA

EuroGames started its production in 1969 with a revolutionary – for its time – battery car for children. The managing Director Fabio De Carlo, son of the founder, continued manufacturing new and attractive models and products with original elements which have made Eurogames products well-known all over the world. Eurogames has achieved international leadership in its branch through high standard production, accurate planning, motivated and qualified team of designers, mechanical and electronic engineers, sales management, partnership with international dealers.

*Eurogames ha iniziato la produzione nel 1969 con una rivoluzionaria - per l'epoca - macchinina a batteria. Il Sig. Fabio De Carlo - figlio del fondatore - continua a sviluppare l'attività con la progettazione e produzione di nuovi modelli, robusti ed attraenti che hanno reso i prodotti Eurogames ben conosciuti in tutto il mondo. Eurogames ha raggiunto la leadership internazionale nel suo settore grazie agli elevati standard di qualità, al team motivato e qualificato di progettisti, ingegneri meccanici ed elettronici, al commerciale, alle partnership con i rivenditori internazionali.*

## PRODUCTION

EuroGames projects, produces and sales worldwide about 100 products divided in 7 categories:  
 Mini Battery cars & Bikes,  
 Go-karts for adults, Big cars,  
 Bumper boats,  
 Bumper cars, Tracks & pools,  
 Decoration & Settings.

## PRODUZIONE

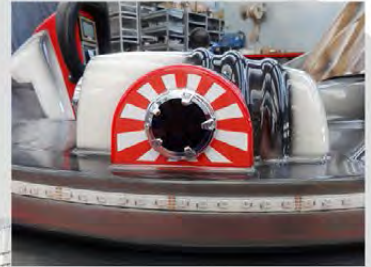

*Eurogames, produce e vende in tutto il mondo circa 100 prodotti - sia standard che personalizzati - divisi in 7 categorie:  
 Mini car e mini moto, Scuola Guida per bambini, go-kart per adulti, bumper boat, Bumper car, piste e piscine, Decorazione e scenografie.*

# TRACKS FOR MINICAR

## PISTE per MINICAR

Vertrieb + Beratung:

Floor: industrial flat concrete.  
You can also use asphalt.

Example of track border and number of mini cars that can run.

We project best **track solution**, taking into consideration available space and wished number of mini cars.

40' x 20' for 4 - 5 minicar

49' x 30' for 8 - 10 minicar

66' x 33' for 10 - 12 minicar

Pavimento consigliato: cemento lucido industriale. In alternativa si può utilizzare un pavimento in asfalto.

Esempi di **dimensioni di piste** e quantità di macchinine utilizzabili.

Progettiamo le migliori soluzioni per la vostra pista, considerando lo spazio disponibile ed al numero di mini car.

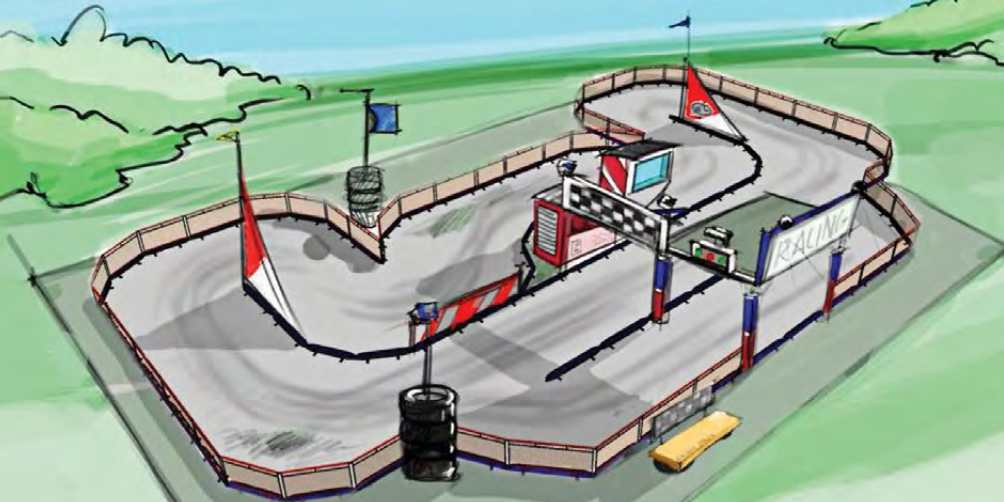

12 x 6m - 40' x 20' per 4 - 5 minicar

15 x 9m - 49' x 30' per 7 - 8 minicar

20 x 10m - 66' x 33' per 10 - 12 minicar
